

GOANNAS OF DARWIN

Below are the main goanna species found across Darwin. When printed on A3 paper, the heads shown below are roughly to scale for an adult animal. The silhouettes compare the approximate size of an adult goanna with that of a 1.8m tall human.

Spotted Tree Goanna

Varanus scalaris

arboreal
max. size 60cm

Black-headed Goanna

Varanus tristis

arboreal
max. size 75cm

Mitchell's Water Monitor

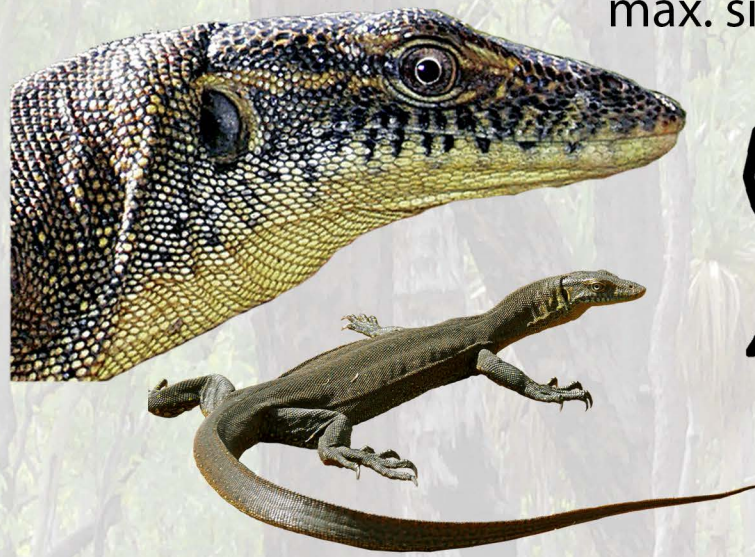

Varanus mitchelli

arboreal/aquatic
max. size 70cm

Merten's Water Monitor

Varanus mertensi

aquatic
max. size 110cm

Mangrove Monitor

Varanus chlorostigma

aquatic
max. size 120cm

Sand Goanna

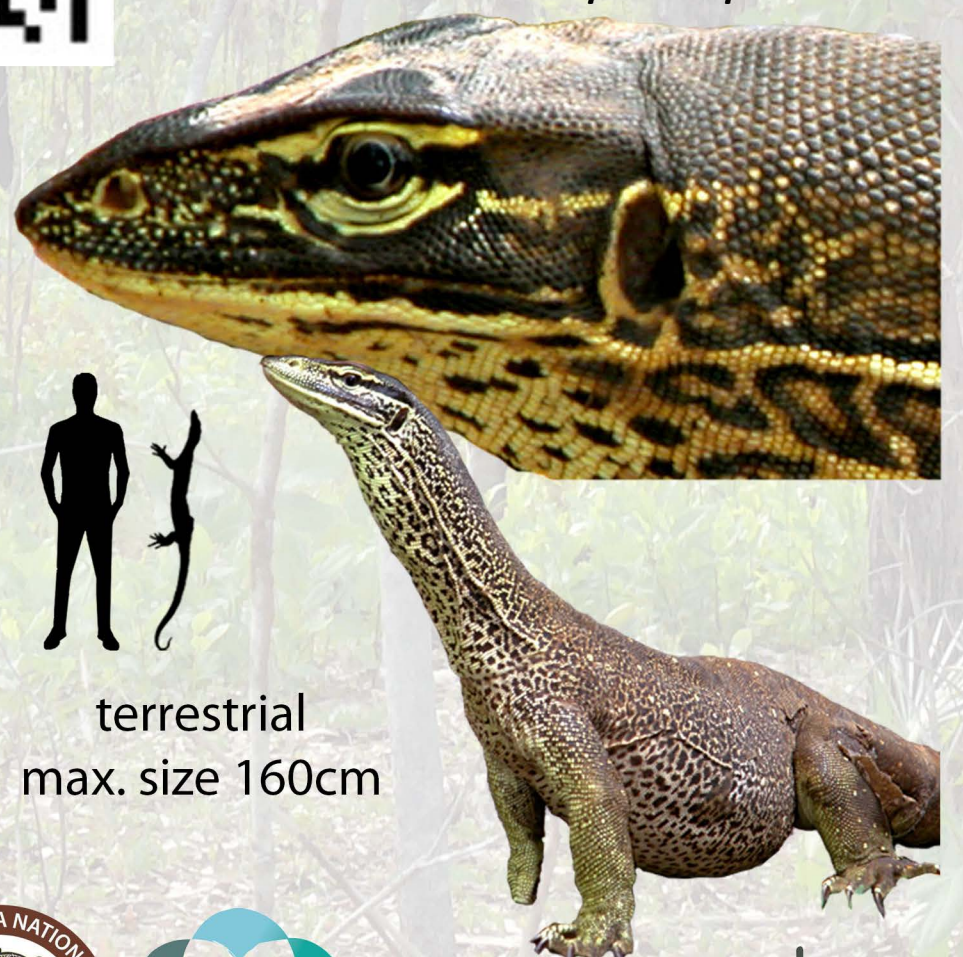

Varanus gouldii

terrestrial
max. size 160cm

Yellow-spotted Monitor

Varanus panoptes

terrestrial
max. size 160cm
