Acknowledgement of Country

City of Darwin acknowledges the Larrakia people as the traditional owners of all the land and waters of the Greater Darwin region.

To the Larrakia, Darwin is known as Garramilla. The original language of the Larrakia is Gulumirrigin (pronounced Goo-loo-midgin).

Often referred to as 'Saltwater People', the Larrakia lived, loved, birthed, hunted, and survived life on pristine coastal and inland areas. Established 'song lines' connecting Larrakia people to Country penetrating throughout their land and sea, allowing stories and histories to be told and retold for future generations.

The Larrakia culture and identity are vibrant. In the footsteps of the Larrakia people, City of Darwin will continue to foster this culture and identity by creating a vibrant community together.

City of Darwin

Introduction

Darwin is a City for People, a City of Colour.

As we move toward 2030, Darwin will be a city that is increasingly smart, prosperous, and green. We are a vibrant and creative city that embraces, celebrates, and values the richness and diversity of our community.

Our vision for Darwin 2030 – City for People, City of Colour outlines our five Strategic Directions:

- A capital city with best practice and sustainable infrastructure
- A safe, liveable, and healthy city
- A cool, clean, and green city
- A smart and prosperous city
- A vibrant and creative city.

These Funding Guidelines deliver on City of Darwin's strategic role to fund and partner with organisations to meet these objectives.

City of Darwin invests in activity within the municipality of Darwin via open, competitive opportunities, transparent processes, and formal agreements with community groups, local businesses, and organisations.

The funding programs optimise the use of public funds through efficient and effective management and ensure strong alignment with City of Darwin's Strategic Plan and values.

In addition to the areas outlined in these guidelines, City of Darwin also supports a process for unsolicited proposals. Unsolicited Proposals are part of the Procurement Framework, and any submissions should be made through our electronic platform available on the City of Darwin website.

The key role City of Darwin plays through the funding programs is as a Funder - funding other organisations to deliver services .

Applications that do not meet the criteria for funding

Applicants can consider submitting an unsolicited proposal to City of Darwin. An Unsolicited Proposal is an approach to City of Darwin from a proponent with a proposal to deal directly with City of Darwin over a commercial proposition, where the City of Darwin has not requested the proposal. Access and inclusion

Access and inclusion is about ensuring that all public services are available to all community members, of all abilities, so that they have the opportunity and choice to participate in all aspects of community life.

To the extent that it is practicable, the applicant is required to provide universal access to sponsored projects/events, as outlined in the [City of Darwin's Access and Inclusion Plan](#) and guided by [City of Darwin's Community Inclusion Policy](#).

Applicants are required to report on the accessibility of projects as part of the acquittal report.

Canvassing or lobbying

If a City of Darwin employee or Elected Member has a direct interest in a funding proposal, they are required to declare this. Elected Members will not take part in the decision of City of Darwin relating to that proposal.

Individual canvassing or lobbying of Elected Members or City of Darwin employees in relation to the funding proposal during the application and assessment process may result in the application being excluded from the funding program.
