ACKNOWLEDGEMENT OF LARRAKIA COUNTRY

City of Darwin acknowledges the Larrakia people as the Traditional Owners of all the land and waters of the Greater Darwin region.

To the Larrakia, Darwin is known as Garramilla. The original language of the Larrakia is Gulumirgin (pronounced Goo-loo-midgin).

Often referred to as “Saltwater People”, the Larrakia lived, loved, birthed, hunted and survived a life on pristine coastal and inland areas. Established ‘song lines’ connecting Larrakia people to Country penetrate throughout their land and sea, allowing stories and histories to be told and retold for future generations. Scientific evidence dates Aboriginal presence in northern Australia to 60,000 years.

The Larrakia culture and identity is rich and vibrant. In the footsteps of the Larrakia people, City of Darwin will continue to foster this culture and identity by creating a vibrant community together.

"IN THE FOOTSTEPS OF THE LARRAKIA PEOPLE, CITY OF DARWIN WILL CONTINUE TO FOSTER THIS CULTURE AND IDENTITY BY CREATING A VIBRANT COMMUNITY TOGETHER."

01 INTRODUCTION

MUNICIPAL PLAN 2026/27

Purpose

The Municipal Plan presents the Lord Mayor and Councillors' strategic resourcing decisions for the City of Darwin team to pursue across the 2026/27 financial year. Through this annual document a set of commitments is made to the community, which will be reported in the Annual Report to be published in November 2027.

Mission

We will work with the community and partners, provide leadership and deliver services which create opportunities to enhance the economic, cultural and environmental sustainability of Darwin.

Vision

DARWIN 2030: CITY FOR PEOPLE. CITY OF COLOUR.

Our strategic directions

This set of strategic directions was established in collaboration with the community, beginning with the Living Darwin Summit. Within the Council and City of Darwin they act as a guide to inform priorities and decision making.

A capital city with best practice and sustainable infrastructure

A safe, liveable and healthy city

A cool, clean and green city

A smart and prosperous city

A vibrant and creative city

CONTINUING THE CONVERSATION THROUGH CONSULTATION

To maintain the conversation, and ensure that Council, officers, and the community continue to align on their vision for Darwin's future, Council takes the opportunity each year to check-in and invite feedback on the Draft Municipal Plan.

During the 21-day consultation period from 30 April 2026 to 20 May 2026, City of Darwin received 47 survey responses and 9 in-person written submissions. Facebook, Instagram and LinkedIn posts achieved 11,403 impressions. There were 882 visits to the Municipal Plan on City of Darwin's Engage Darwin website and 269 downloads of the draft document. 48 people were engaged at the community pop-up stalls.

From the 56 total responses received, sentiment was mixed but largely positive when it came to the overall direction and priorities of the Draft Municipal Plan 2026/27, with 46.4 per cent in support, 35.7 per cent against and 17.9 per cent uncertain or supporting only some aspects of the plan.

Feedback in support of the plan highlighted the importance of investing in green spaces and tree planting, upgrading parks and recreational facilities, improving cycling and pedestrian infrastructure and strengthening environmental and climate resilience measures across the city.

Residents opposing aspects of the plan raised concerns about Council decision-making, the adequacy of the community safety budget, the level of capital investment in sporting facilities, and a perceived overspend in waste management.

Mixed feedback was received on connectivity and accessibility spending, arts and community grants, and the balance between new infrastructure investment and maintenance of existing assets. Respondents also raised specific suggestions including wet-season exercise infrastructure at ovals, increased native tree planting, and improved pedestrian access.

Sentiment on the proposed 2026/27 rates increase was mixed, with 44.6 per cent sharing a negative response compared to 39.3 per cent sharing a positive response. Key concerns centred on cost-of-living pressures, the rate rising above CPI and a desire for Council to demonstrate internal savings before passing costs to ratepayers. A smaller proportion of respondents acknowledged the need for rate adjustments, with several indicating support recognising previous years' low rates increase.

Elected members received the engagement report and there have been no recommended changes from the initial draft municipal plan.

Do you support the draft Municipal Plan 2026/27?

Figure 1 Support for the draft Municipal Plan 2026/27

LORD MAYOR AND CEO FOREWORD

We are pleased to present the 2026/27 Municipal Plan and Annual Budget, highlighting Darwin as a vibrant, connected and evolving community. This plan continues to advance the priorities set out in Darwin 2030: City for People. City of Colour, reinforcing our commitment to a city that is inclusive, culturally rich and full of life.

Developed in partnership with our Councillors and City of Darwin staff, this year's Municipal Plan reflects the voices of our community and is underpinned by strong financial stewardship.

This year's Municipal Plan is focused on a reset; it is a purposeful recalibration – prioritising essential infrastructure, asset renewal and long-term sustainability to ensure the city is operating at its best. This approach reflects a clear focus on getting the fundamentals right, making disciplined investment decisions, and building resilience across our municipality.

Through this reset, we are not slowing down – we are strengthening our platform for future growth, ensuring Darwin continues to evolve as a dynamic, liveable and future-ready city.

To support our community we have balanced rising costs with a need to maintain essential services resulting in a proposed 5.5 per cent rate rise.

We understand the pressures of the rising cost of living and the impact this is having on households and businesses across our community. In setting this year's budget, careful consideration has been given to balancing these pressures with the need to maintain essential services and invest in critical infrastructure. We remain committed to delivering value for money, ensuring that every dollar is spent responsibly and in a way that supports the long-term sustainability of our city.

While this year's focus is on strengthening our core infrastructure, we remain committed to supporting community connection and wellbeing through accessible programs, events and shared experiences across the municipality.

Our focus continues to be on delivering a range of free events, programs and initiatives that foster connection, support wellbeing and enhance community life. Through much-loved offerings such as Healthy Darwin, Jingili Water Festival and Families Week events, LAUNCH Night Series, school holiday programs, library activities and community workshops, we are creating accessible opportunities for people of all ages to come together and engage.

"IN THE YEAR AHEAD, CITY OF DARWIN WILL PRIORITISE THE RENEWAL AND ENHANCEMENT OF ESSENTIAL INFRASTRUCTURE TO SUPPORT A SAFE, FUNCTIONAL AND LIVEABLE CITY."

Lord Mayor Peter Styles and Chief Executive Officer Simone Saunders

From family-friendly experiences and recreational programs to arts, cultural and community-led initiatives, we are committed to ensuring Darwin remains a welcoming, inclusive and energetic city where everyone can participate and feel a sense of belonging.

We also recognise the importance of maintaining a cool, clean and green environment. As such, greening and cooling our municipality will remain a key priority, supporting a more liveable and resilient city for our community now and into the future.

In the year ahead, City of Darwin will prioritise the renewal and enhancement of essential infrastructure to support a safe, functional and liveable city. This includes a continued focus on stormwater upgrades, alongside a comprehensive roads program delivering resurfacing, pavement repairs, annual asset renewals and targeted asphaltting works across the municipality. Improvements to street lighting will also be undertaken to enhance safety and accessibility for residents and visitors.

In line with our commitment to creating safe, accessible and multigenerational spaces, construction of the Waters Ward Multigenerational Recreation Space is now underway. This significant project will deliver a new playground, car parking and increased greening and shading, contributing to healthier, more connected and liveable communities for all ages.

We thank both our Councillors and City of Darwin staff for their input in shaping a Municipal Plan and Budget that continues to support our Darwin 2030 vision.

We will continue to deliver meaningful outcomes for the people of Darwin, ensuring our community's needs are addressed now and sustainably into the future.

**The Honourable Lord Mayor
Peter Styles**

**Chief Executive Officer
Simone Saunders**

\$10M

MAINTAINING OUR PARKS

- \$3.3 million in tree planting and maintenance

\$295K

INVESTMENT IN ICT

PRIORITIES TO PROGRESS

Road resurfacing and renewal

City of Darwin is investing \$3.55 million into the road resurfacing and renewal program for 2026/27, which is an increase of \$1.65 million from 2025/26. This significant increase highlights City of Darwin's commitment to maintaining critical infrastructure across the municipality.

Key projects within this program include a \$640,000 investment for Yanyula Drive, \$400,000 for the Vanderlin Drive Service Road, \$400,000 for Narrows Road, and \$267,000 for Gardens Hill Crescent. The program also includes works at Albatross Street, Boulter Road, Britomart Court, Calytrix Road, Harney Street, Hook Road, Lanyon Terrace, Reichardt Road, Thornton Crescent and Tolmer Street. This roads program is also supported by an allocation of funds towards kerb replacement for some of these projects.

Road resurfacing and renewal works are a vital component of maintaining Council's key infrastructure. Upon completion of these works, road users can expect to see better road surfaces, a reduction in potholes, and a longer useful life of the asset, reducing the need for costly maintenance into the future.

Road reconstruction

The 2026/27 road reconstruction program consists of three major projects totalling \$4.45 million, which is supported by a total \$6.4 million grant from the federal government's Roads to Recovery program, of which \$3.9 million is recognised in the 2026/27 Municipal Plan.

Road reconstruction works are planned for Lee Point Road, the intersection of Aralia Street and Banksia Street in Nightcliff, and the intersection of Bishop Street and Benison Road in Winnellie.

The Lee Point Road project sees the commencement of stage 2 works in the area, and key deliverables include:

- an upgrade of Lee Point Road to a typical urban cross section between Coleman Street and Fuhrmann Street, including drainage and street lighting
- installation of a signalised intersection at Lee Point Road and Daldawa Terrace
- a pedestrian crossing facility between Garamanuk Park and Bowditch Street Park
- a footpath on the western side of Lee Point Road, between Dulinda Terrace and Fuhrmann Street
- verge and median island landscaping.

Stormwater upgrades and reconstruction

Approximately 136 billion litres of water passes through City of Darwin's stormwater system on an annual basis, and City of Darwin is committing to delivery of a \$4.5 million program for 2026/27. This program sees an increase in budget from last year of over \$2.6 million.

A total of 11 sites have been identified for stormwater upgrades and reconstruction works in the 2026/27 financial year, with major works being undertaken at key sites including Narrows Road, The Narrows, Wackett Street, Jingili, and Gardens Hill Road, The Gardens. These three projects account for \$2.4 million of the total program budget, with the remaining budget of \$2.1 million split across eight other sites. These sites include Palm Circuit and Kurrajong Circuit in Nightcliff, and Gaden Circuit and Sanders Street in Jingili, as well as two sites in Alawa.

Shoal Bay Waste Management Facility

To support an environmentally responsible and sustainable waste management facility, City of Darwin has allocated \$3.4 million towards projects at the Shoal Bay Waste Management Facility in Karama.

The 2026/27 budget sees funding committed towards construction of Stage 7 at the site, supporting delivery of a new putrescible waste cell. The primary purpose of these waste cells is to safely and effectively contain and manage community and business wastes from across the Northern Territory. The best practice engineered cells protect soil and groundwater from contamination, and support effective collection and management of leachate, ensuring City of Darwin remains compliant with the terms of the Environmental Protection Licence and extending the life of the site.

Other projects at Shoal Bay Waste Management Facility include:

- internal road design and upgrades
- design of a stormwater detention basin
- improvements to the Resource Recovery area
- landfill cell and cell capping design.

Stormwater drainage

Playgrounds

This year's playgrounds program is headlined by the stage 2 works at the Waters Ward Multigenerational Recreation Space in Malak. Building on the stage 1 construction which commenced in 2025/26 and will deliver a new carpark, headworks, and a high thrill zone playground, the stage 2 program aims to deliver a toilet facility and pathways.

Playground renewals are also occurring in the suburbs, with playground upgrades and softfall refurbishments occurring at Clancy Park in Fannie Bay, and Malabar Park in Larrakeyah. The renewal program makes sure that our parks and playgrounds support safe active recreation.

Civic Centre and Precinct Redevelopment Project

The 2026/27 year sees construction continue on the new Civic Centre building. The main lift core will reach the top of the construction site with a significant portion of the base build level nearing completion by the end of the financial year.

Throughout the year, the floors will gradually rise across the site, and an integrated fit out will commence for levels 1 and 2 of the building which will house the library and civic facilities. Works will also commence on the building façade.

Another key milestone for the year will be the community consultation and engagement project for the Civic Plaza and Precinct to ensure the public is involved in shaping the future vision for the site.

ELECTED MEMBER ALLOWANCES

Elected member allowances are set by the Northern Territory Remuneration Tribunal each year. The Report and Determination No. 1 of 2026 – Determination of Allowances for Members of Local Government Councils was made on 9 December 2025 and tabled in the Northern Territory Legislative Assembly on 13 March 2026.

The Determination sets the value of allowances for councillors, deputy principal members, and the principal member. Allowances are paid in accordance with City of Darwin Elected Members Expenses, Facilities and Support Policy.

The annual councillor allowance has increased by 3 per cent from the previous financial year. The Principal Member allowance has also increased \$2,000 to align with the changes to the extra meeting/activity allowance cap for other elected members. The allowance cap increased from \$10,000 to \$12,000 in the 2026/27 financial year. The professional development allowance has increased by \$2,500 to a maximum of \$7,500 per member per year, and there have been no changes to the vehicle allowances for City of Darwin elected members.

Principal Member (Lord Mayor)

Type of allowance	Principal member allowance from 1 July 2026
Principal Member allowance	\$134,288.00
Councillor allowance	\$34,037.00
Vehicle allowance	\$25,000.00
Professional development allowance	\$7,500.00

Deputy Principal Member (Deputy Lord Mayor)

Type of allowance	Deputy principal member allowance from 1 July 2026
Deputy Principal Member allowance	\$23,800.00
Councillor allowance	\$34,037.00
Extra meeting/activity allowance	Up to 2 hours \$200.00 Between 2 and 4 hours \$300.00 More than 4 hours \$500.00 (maximum payable for any one day) Extra meeting allowance capped at \$12,000.00 per financial year Extra meeting allowance not included in \$12,000 cap
Professional development allowance	\$7,500.00

Councillor

Type of allowance	Councillor ordinary base allowance from 1 July 2026
Councillor allowance	\$34,037.00
Extra meeting/activity allowance	Up to 2 hours \$200.00 Between 2 and 4 hours \$300.00 More than 4 hours \$500.00 (maximum payable for any one day) Extra meeting allowance capped at \$12,000.00 per financial year Extra meeting allowance not included in \$12,000 cap
Vehicle allowance	Travel exceeds 50km from home base Vehicle allowance will be in the form of kilometre allowance, at rates set by the Australian Taxation Office each year Capped at \$10,000 per financial year
Professional development allowance	\$7,500.00

 City of Darwin Long Term Financial Plan
 Long term asset management plans
 Other City of Darwin strategies and policies

LONG TERM FINANCIAL PLAN

City of Darwin's Long Term Financial Plan (LTFP) extends across a ten-year period and ensures we maintain a focus on managing our medium and long-term financial position, so that successive Councils inherit a financially sound organisation.

Given the changing nature of many of the assumptions, the LTFP is a living document that is periodically updated to ensure it remains fit for purpose. Unforeseen events, changes in

strategic direction or additional grants need to be evaluated in relation to the currency of the LTFP as seemingly minor changes may have a compounding effect on City of Darwin's capital plans.

The plan outlines the assumptions that the financial model is based on and the subsequent impact of those assumptions on future revenue, operational and capital expenditure.

Scan the QR code to view City of Darwin's Long Term Financial Plan.

ADVOCACY AND COLLABORATION

City of Darwin partners with a range of organisations to provide leadership, secure funding and investment, and influence policy outcomes with other tiers of government. We maintain key partnerships and representation on the below groups.

Council of Capital City Lord Mayors (CCCLM)

CCCLM provides a national corporate entity for the effective coordination and representation of the interests of Australia's capital cities in their relations with other spheres of government. CCCLM contributes to national policy priorities for economic development, housing and homelessness, infrastructure, climate action and city resilience, and facilitates political and stakeholder engagement activities with federal members.

Australian Local Government Association (ALGA)

The national voice of local government representing 537 councils across Australia, ALGA provides a local government perspective on national affairs, as well as providing submissions and representation to government and parliamentary inquiries and national bodies. City of Darwin is a member of ALGA.

Local Government Association of the Northern Territory (LGANT)

The peak body representing the local government sector in the Northern Territory, LGANT advances the interests of local government in the Northern Territory through policy development, advocacy, representation, training, capacity building and support. City of Darwin is a member of LGANT, and City of Darwin Councillor Peter Pangquee currently sits as the President of LGANT.

Top End Regional Organisations of Council (TOPROC)

TOPROC comprises of seven Top End Councils that represent around 78 per cent of the Northern Territory's population: Belyuen Community Government Council, City of Darwin, City of Palmerston, Coomalie Community Government Council, Litchfield Council, Tiwi Islands Regional Council and Wagait Shire Council. It is committed to the sustainable development of our Greater Darwin region and progresses common issues.

HOW OUR SERVICES ARE STRUCTURED

In developing the budget, Council considers where the organisation sits on the path towards achieving the Darwin 2030 Strategic Plan. Lord Mayor and Councillors set the strategic direction for the services City of Darwin provide over the coming year and the projects, programs and initiatives resourced for delivery as a priority for the community.

The CEO manages implementation, delivery and performance reporting to Council and community throughout the year.

OUR DELIVERY COMMITMENTS

Council sets an annual budget to resource a program of key deliverables and the indicators by which the standard of City of Darwin's performance will be assessed. The key performance indicator for each of City of Darwin's 2026/27 deliverables is the completion of these actions.

Officers work throughout the year to deliver on these commitments and provide regular reporting to Council and the community on the progress, performance, and any issues arising.

06 BUDGET

The 2026/27 budget was developed with consideration of affordability for the community, while ensuring sufficient funding to meet operational requirements and strategic priorities. In a challenging and uncertain inflationary economic environment, Council continues to face increased costs in the delivery of essential services and in its custodianship of vital community infrastructure. As steward of more than \$1.4 billion in community assets, Council plans to invest \$23.6 million in the maintenance and enhancement of these assets.

The general rate pool has been increased by 5.5 per cent, to maintain essential services while responsibly managing genuine financial pressures. The 5.5 per cent rate increase to an average valued single dwelling property is \$104.99 per year or \$2.02 per week and, including the annual waste levy, the overall indicative increase for an average property is \$2.30 per week. Over the last two years this equates to an average rate rise of 3.5 per cent which is in line with Consumer Price Index headline inflation for this time period.

The balanced strategic approach in revenue generation and focus on the renewal of its existing asset base, underscores Council's commitment to supporting the local community, prudent financial management and long-term financial sustainability.

Council's 2026/27 annual budget is balanced as per legislative requirements.

2026/27 operating budget overview

The operating budget provides details of the income it receives to fund its operations and the expenses it incurs in delivering services to the community.

ANALYSIS OF OPERATING BUDGET

Income

Where the funds come from

Operating income (excluding income for capital purposes)

2026/27 total operating income \$145.39 million

Figure 2 2026/27 operating income (Excluding income for capital purposes)

Table 2 2026/27 operating income (Excluding income for capital purposes)

Annual budget income

Operating Income	Budget	Original Budget	\$	%
	2026/27 \$'000	2025/26 \$'000	2025/26 - Variance to - \$'+INC (-DEC)	2025/26 %'+INC (-DEC)
Rates	84,908	80,478	4,430	5.5%
Charges	10,814	10,398	416	4.0%
Statutory charges	3,330	3,252	78	2.4%
User fees and charges	32,927	29,851	3,076	10.3%
Operating grants and subsidies	6,901	6,667	234	3.5%
Interest/investment income	4,070	3,852	218	5.7%
Commercial and other income	2,437	2,419	18	0.7%
Total income	145,387	136,917	8,470	6.2%

The chart and table show where City of Darwin generates the income required to service the community and renew or upgrade its asset base.

Revenue from rates is a crucial financial revenue stream for City of Darwin, playing a vital role in ensuring financial sustainability. Rates and charges support a wide range of services, including waste collection and management, community parks and reserves and the upkeep of an extensive network of roads and footpaths. In addition to addressing the infrastructure needs of the community, City of Darwin also provides essential community services such as libraries, community spaces, community events, grants to support local and environmental initiatives, arts and cultural activities, animal management, recreational facilities and many other diverse services.

User fees and charges are the second source of significant revenue for City of Darwin. A large portion of these fees is associated with the operation of the Shoal Bay Waste Management Facility, the sole waste management site in the Top End that serves multiple local government areas. The revenue generated from this facility is exclusively allocated to its operational costs, capital investments, or reserved for future remediation efforts. Council continues its commitment to ensuring that the site is properly remediated upon its closure and that environmental protection measures are upheld both now and in the future.

Operating and capital grants

Council actively collaborates with both the Australian and Northern Territory Governments to optimise the funding received through grants and reduce the reliance on rates for major capital works. These partnerships enable City of Darwin to offer additional services and expedite critical infrastructure projects within the Darwin municipality that might otherwise face delays or be unable to be funded. The budget anticipates \$6.9 million in operating grants and \$4.52 million in capital grants. Operating grants include Financial Assistance Grant, Public Library Services Funding Agreement, Fun Bus and the mosquito control subsidy. Capital grants anticipated include \$3.9 million from Federal Government for the Lee Point Roads to Recovery project, \$0.55 million environmental grant contribution for Casuarina Aquatic and Leisure Centre and \$0.075 million for accessible land-based fishing at Bundilla recreation space.

Total expenses	157,771	148,472	9,299	6.3%

The 2026/27 operating expenses chart and table show on what categories City of Darwin spends most of its money.

Materials, contracts and services is the largest category of expenditure and these support a wide variety of City of Darwin deliverables. The largest area within the category is waste management and represents the domestic waste collection across the municipality and the operation of the Shoal Bay Waste Management Facility. This is a complex essential function of City of Darwin and costs continue to rise in a challenging economic environment. Council continues to seek opportunities to improve its waste management and waste diversion tactics.

Employee costs are City of Darwin's second largest expense and reflect investment in a workforce of 380 plus staff in delivering frontline services, support services and administration services. The investment in direct staff ensures City of Darwin maintains a high standard of customer service and compliance with all applicable legislation and requirements for local government.

Depreciation is a non-cash expense, that is, City of Darwin does not need to pay money out of the bank for this expense. It is an expense that based on engineering data and theoretically shows the dollar value of the deterioration of City of Darwin's assets due to both use and age. In an ideal budget, the level of capital renewal expenditure should match depreciation to ensure assets remain at the same standard and not degrade over time. Council has not yet achieved this target.

CAPITAL WORKS

Delivering for our community

Each year City of Darwin undertakes a capital works program that is a mix of new, renewal or upgrade of existing infrastructure. This is funded from the income streams of rates and charges, grants, contribution and external borrowings as appropriate. City of Darwin builds and maintains the assets that support liveability in Darwin and strives to meet community expectations for the level of amenity a modern city provides.

The 2026/27 capital program prioritises asset renewal and has focused on road renewals and stormwater infrastructure. However, investment remains well below targeted range and further work is required to ensure sustainability of essential infrastructure in the long term.

The capital program includes a broad range of categories.

OUR RATING STRATEGY

Rating strategies

City of Darwin has adopted a rating strategy covering the 2026/27 financial year with the goals of:

- delivering projects and services within a financially sustainable framework
- serving community needs and expectations in delivering priority capital works
- setting out the principles considered by Council in deciding on the mix of rates and annual charges
- consideration of future Councils' needs to fund ongoing maintenance, replacement and rehabilitation.

Rating principles

Council's rate setting and charging structure are based on the following principles:

- **Equity:** defined as broad based and reasonable stakeholder acceptance of each rate or charge structure, derived from a balance of the principles and user pays versus capacity to pay (or deemed capacity to pay) on a case-by-case basis.
- **Effectiveness / efficiency:** defined as meeting the financial, cultural, social, economic, environmental or other corporate objectives of the Council as stated in its long-term plans or policies.
- **Simplicity:** to ensure widespread community of stakeholders understanding and minimise perceived inequities and hidden costs of a complex system.
- **Sustainability:** revenue decisions support the financial strategies for the delivery of infrastructure and services identified in Council's long-term planning.

Rates inclusions

In collating and refining the budget, Council is supported by the CEO and finance team in a series of workshops over many months to:

- examine the social context of the community, its needs, priorities and expectations
- consider NT Government Department of Treasury and Finance public economic outlook
- gain an awareness of the Long-Term Financial Plan
- consider and align to future plans of other tiers of government including their estimates for population growth
- review the mix of services, capital works and other priority initiatives it wants to deliver for the coming year. Together, these elements are considered to arrive at a final program to be funded from rates.

Throughout the year a regime of monthly and quarterly financial reporting which includes cashflow and debtor trends is provided to Council. Carry forward recommendations from officers and a budget variations process include the formal adoption of changes by Council.

Together these transparent governance practices stimulate regular conversations relating to the social and economic effects of the budgeted rating strategy.

RATES AND CHARGES

Rates and charges by major category

Figure 5 Rates and charges by major category

Table 5 Rates and charges by major category

Council is not immune to the effects of increased inflation and has experienced significant cost increases to its services. For the 2026/27 financial year, Council proposes to increase the revenue generated by general rates by 5.5 per cent. This maintains services Darwin residents depend on while managing real cost pressures. The Council considers that this is a balanced approach that weighs the costs to the community, recognising the rising cost of living for individual ratepayers, against the benefit of the services provided to the community.

The general rates on the average valued single dwelling property is expected to be \$2,013.81 or \$38.73 per week. This is an increase of \$2.02 per week compared to the 2025/26 financial year.

The kerbside garbage collection charge increase reflects the cost of collection and contributes towards the current and future costs of operating, maintaining, and rehabilitating the Shoal Bay Waste Management Facility. It has been proposed to meet these costs by increasing the levy by \$14.57 per annum to \$378.95, or an increase of \$0.28 per week.

Combining both the rates and the annual waste charge, an average valued single dwelling property can expect to pay \$2,392.76 per annum, or \$46.01 per week. This is an increase of just \$2.30 per week compared to the 2025/26 financial year.

Combined amount per week	43.72	46.01	2.30	5.26

General rates

A differential general rate shall be levied on all rateable properties based on the unimproved capital value (UCV) of the land falling within the above Town Planning Zones under the Northern Territory Planning Scheme as referred to in the Planning Act 1999.

Other rates

The municipal parking rate is assessed and levied in accordance with the *Local Government (General) Regulations 2021*.

The municipal parking rate may be levied on all land within Central Darwin as defined in Part 4 of the Regulations and as published in the parking usage schedule, available for inspection at City of Darwin's offices.

The proceeds of the municipal parking rate are used for the provision, operation and maintenance of land, facilities, services and improvements in relation to the parking of vehicles in central Darwin. The parking rate shortfall per parking space for 2026/27 is \$294.19.

Waste management charges

City of Darwin residents who pay the waste levy are provided with domestic waste and recycling collection services and free disposal of domestic quantities of household waste in a non-commercial vehicle via Shoal Bay Waste Management Facility access tags.

Both the domestic and commercial waste management fees for 2026/27 are published in the Fees and Charges booklet and in the back of the Municipal Plan.

Waste management charges support both operational costs and the significant capital investments that support environmental compliance and the long-term sustainability of Shoal Bay Waste Management Facility.

The Waste management levy has increased by 4 per cent this financial year due to escalating waste collection costs; this increase is in alignment with the long-term financial plan.

BUDGETED FINANCIAL STATEMENT 2026/27

The annual budget is presented in the required format of Guideline 5: Budgets of the *Local Government Act 2019*. Budget financial statements for 2026/27 on the following pages are:

A. Annual budget income and expenditure

This statement outlines:

- all sources of Council's operating income
- all operating expenses. These expenses relate to Council operations and do not include capital expenditure. Depreciation, being the annual allocation of wear and tear on assets is included and is a non-cash item.

The net operating surplus/(deficit) for the year is a measure of Council's financial performance. This figure is determined by deducting total operating expenses from total operating income.

B. Annual budget operating position

This statement summarises the actual flows of funds for the year and is crucial in explaining how Council meets its statutory obligation of having a balanced budget. The statement also explains the change in the cash / funds balance held from the start of the year through to the end of the year. The report shows where City of Darwin received its cash / funds from and what it plans to spend it on.

C. Budgeted statement of financial position

The statement of financial position details what City of Darwin owns (assets) and what it owes (liabilities) at a point in time. In this case, as at 30 June 2027. City of Darwin's net worth is determined by deducting total liabilities from total assets, this is City of Darwin's equity. The larger the equity, the more assets City of Darwin owns outright.

D. Budgeted statement of reserves

This statement provides details of City of Darwin's reserve balances at the start of the year and the transfer from / to reserves for the year. These reserves represent part of the cash assets and investments balance shown on the balance sheet, as they are cash backed. They are generally held to provide for the future upgrade or provision of new infrastructure and assets.

E. Budgeted statement of borrowings (external and internal)

This statement provides details of City of Darwin's existing borrowings as well as any proposed new borrowings. City of Darwin's borrowing policy describes the set of circumstances under which new borrowings can be considered.

F. Capital expenditure and funding

This statement outlines Council's planned capital expenditure for the year by asset class. The statement projects the capital expenditure for the following 4 years and how it is intending to fund this capital investment.

G. Planned major capital works and projected costing

This statement outlines major capital works projects that are either in progress, that will continue over more than one financial year or will be completed in the 2026/27 financial year. City of Darwin's minimum major projects threshold is \$5 million.

Budget assumptions

A budget is an estimation on the income and the expenses that City of Darwin is expected to incur in the forthcoming year, consequently a number of assumptions for uncertain conditions must be made in order to develop an achievable target.

One of the main assumptions applied at City of Darwin is that the service delivery levels (with the exception of new initiatives) to the community remains at the same level and standard as the current year. This has been undertaken in a climate of economic uncertainty, rising local government costs, a tight labour market and ongoing structural supply constraints. This both directly and indirectly impacts the costs to City of Darwin to deliver these services and estimations based on the nature and type of service have been included in the budget to ensure continued quality service delivery.

In order to identify efficiencies and savings to mitigate increased costs in providing services, Council reviews each individual program. Increases in costs are absorbed where possible and CPI or other increases implemented only when unavoidable. Employee costs have been projected to increase in line with the assumptions adopted in the Long-Term Financial Plan.

City of Darwin assumes that demand for user pay services remains consistent with current trends and has increased fees generally by CPI, waste disposal fees at Shoal Bay, which increase in line with LTFP assumption. This is to meet rising costs at the facility and long-term management of the site including remediation works.

Economic conditions remain uncertain for 2026/27 and Council maintains a disciplined approach to monitoring actual income and expenses incurred against its budget and makes necessary amendments and any required rectification actions as needed through the budget review process to ensure continued responsible financial management of community assets and services.

Plant and vehicle replacement	1,861,923	(655,618)	1,206,305
Total internally restricted reserves	14,263,074	(2,557,288)	11,705,786
Total all reserves	36,781,549	1,431,812	38,213,361

Notes:

1. Opening Balances as per 2nd Budget Review with known adjustments.
2. Early adopted carry forwards will be rolled out as part of EOY Carry forward program and excluded, except where funding 2026/27 MP Capital Program.
3. Reserves with nil budgeted balances and movements are not listed
4. Numbers in statements may include minor rounding differences.

The purpose of reserve funds in general is to:

- ensure, where applicable, that funds are held separately and only utilised for the proper legal purposes. The main examples of such funds are developer contributions for specific purposes.
- assist the Council to avoid sudden changes in rates and enable a stable pricing path throughout its long-term financial plans.
- provide a contingency or provision for unexpected events such as natural disasters, cyclones or events that are likely to take place by cannot be predicted reliably into any particular year.

The opening balances in 2026/27 budgeted statement of reserves are projected as at 30/06/2026 (excluding carry forwards of existing programs which will be rolled out as part of end of financial year processes).

Only those reserves with an anticipated opening balance above zero or known movements to occur are included in the 2026/27 budget. As outlined in Council Policy 3010.100.E.R Financial Reserve Policy, reserves maybe deactivated and reactivated from time to time where there is a nil balance or a Council resolution.

2026/27 ANNUAL BUDGET KPIS

Budgeted financial performance indicators (KPIs)

% of rate debtors outstanding	Target	Actual 2024/25	Budget 2025/26	Budget 2026/27
	<5%	6.1%	6.5%	6.2%

This indicator is designed to measure Council's effectiveness in recovering debts legally owed to it.

Debt servicing ratio	Target	Actual 2024/25	Budget 2025/26	Budget 2026/27
	<10%	9.4%	7.0%	7.1%

This indicator is designed to show what proportion of revenue is required as a commitment to fund Council's loan repayments. Finance costs excludes interest expense of unwinding Waste remediation liabilities as a non cash item.

Liquidity ratio – unrestricted	Target	Actual 2024/25	Budget 2025/26	Budget 2026/27
	≥1.50	3.35	1.3	1.1

This indicator is designed to measure whether Council has the ability to pay its debts as they fall due expressed as a factor of one; (Current Assets minus Externally Restricted Reserves)/Current Liabilities.

Rates ratio	Target	Actual 2024/25	Budget 2025/26	Budget 2026/27
	60%-70%	63.2%	61.2%	60.7%

This indicator is designed to measure Council's ability to cover its day to day expenses through its own rates and annual charges.

Operating surplus/(deficit)	Target	Actual 2024/25	Budget 2025/26	Budget 2026/27
	Break-even	\$1.40M	(\$11.56M)	(\$12.38M)

This indicator is designed to provide information on the result of ordinary operations including depreciation, which is a non cash expense. Council does not fund depreciation rather it funds the capital expenditure program.

Operating surplus before depreciation	Target	Actual 2024/25	Budget 2025/26	Budget 2026/27
	\$25M - \$35M	\$35.6M	\$22.0M	\$25.5M

This indicator is designed to provide information on the result of ordinary operations before depreciation, which is a non cash expense. Excluding depreciation gives the amount of operating income over and above operating expenses that is available to fund capital expenditure.

Asset sustainability ratio	Target	Actual 2024/25	Budget 2025/26	Budget 2026/27
	100%	35.7%	37.4%	34.1%

This indicator is designed to indicate the extent to which Council is renewing its assets. A ratio of 100% or more indicates that Council spends at least the amount of depreciation each year on renewing assets.

ABOUT THIS MUNICIPAL PLAN

Each year the Municipal Plan is developed by Councillors under the leadership of the Lord Mayor. It establishes the strategic direction, resourcing, funds available and income streams for the coming year to deliver programs, projects and actions that work towards achieving the 2030 vision. It is Council's commitment to the community, Minister and Agency about the annual strategic resourcing decisions it has decided as the next steps towards achieving the adopted long-term strategy, Darwin 2030: City for People. City of Colour.

- Sporting grounds, ovals
- Gardens Oval building hire
- Gardens Oval complex
- Regional ovals (Gardens Oval One)
- District and local ovals (Gardens Oval 2 and all other ovals)
- Oval toilet keys
- Sporting ovals signage
- Sports oval lighting

Tennis courts 97

Trees, shrubs 97

- Valuation of stolen/damaged trees, shrubs

Waste disposal – Shoal Bay 98

- Domestic access
- Commercial

The following general conditions apply to all City of Darwin fees and charges.

GENERAL CONDITIONS

Fees

Within this document facility hire states three levels of fees.

These are:

- the full fee payable,
- the concessional fee for regular weekday use by not-for-profit community organisations, and
- a concessional fee for either one-off events on Friday evenings or weekends, or events which span more than the sessional use specified.

Not-for-profit organisations' requests for concession fees to be negotiated must be in writing.

Non-for-profit organisations

The definition for eligibility for concession fees is:

A self-help group (not operated by commercial interests and stated as not-for-profit by statutory declaration), or a not-for-profit community organisation (incorporated under the Associations Act).

Pensioner concessions

Some fees and charges within this document allow a concession for pensioners. All people seeking such concession must provide appropriate proof of eligibility, such as a Commonwealth Health Care Card, or a Northern Territory Pensioner Concession Card.

Indemnity

Organisations hiring City of Darwin facilities are required to have public liability insurance cover.

Groups and individuals without their own public liability insurance must be aware that City of Darwin will not be held liable for any accident occurring through the actions or negligence of group members or guests.

Credit card surcharge

City of Darwin may impose a surcharge of 0.4% on payments made using a credit card. This surcharge charge will not apply from 1 October 2026.

✗ = Item is exempt from GST per ATO Division 81.

Amounts in **BOLD** indicate GST is applicable and has been included

Responsibility for damage to City of Darwin property

The cost of damage to City of Darwin property will be recovered from the party responsible. In the case of hire of City of Darwin property, the hirer will be held responsible and in the case of a permit/licence, the permit/licence holder will be held responsible. The cost of repairs will be calculated as the:

- actual invoiced cost to City of Darwin of materials and services used plus cost of City of Darwin labour, plant and stores used, including overheads
- total cost to be recovered will be the costs above plus 15%.

Seasonal oval allocations

City of Darwin ovals are made available for sporting organisations to use for wet and dry season competition, training and pre-season use.

Seasons: wet season 1 October to 31 March

dry season 1 April to 30 September

City of Darwin allocates ovals through peak sporting bodies in the first instance so they can arrange club fixtures.

The definition of a peak sporting body is an organisation representing the interests of those involved in the nominated sport and one affiliated with a national body that recognises the peak body for the sport in the NT.

A peak body will also be registered as an incorporated body with the Department of Territory Families, Housing and Communities and hold a current public liability insurance policy.

Single use plastics

In January 2019, City of Darwin implemented a ban on all single use plastics at City of Darwin events and events held on City of Darwin land including markets. These changes have been implemented to reduce the amount of single use plastic used and protect Darwin's unique environment.

The ban on single use plastics relates to all City of Darwin permits and leases and these were updated from 1 January 2019 to reflect this change. Further information on how to conduct an event without single use plastics is available at

www.darwin.nt.gov.au

✗ = Item is exempt from GST per ATO Division 81.

Amounts in **BOLD** indicate GST is applicable and has been included

ADMINISTRATION FEES

Assessment record inspection fee

Section 230(4) of the *Local Government Act 2019* (NT) states that any person with sufficient interest is entitled to inspect or copy the Assessment Record, when the City of Darwin office is open to the public, at a fee fixed by the Council.

Section 230(6) provides circumstances where the inspection can be free of charge.

Car parking – conditions

Conditions of parking

1. All vehicles are parked at the risk of the person parking the vehicle and no employee or agent of City of Darwin is liable for any loss or damage to vehicles parked in City of Darwin car parks, whether occasioned by negligence or otherwise.
2. No person employed by City of Darwin has authority to accept vehicles or articles for safekeeping.
3. The common law as to bailment of goods does not apply in respect of the parking of a vehicle with its contents in City of Darwin car parks.
4. Any person having the authority of the City of Darwin has authority to enter any vehicle in a City of Darwin car park and move or drive it to another place.
5. Any person having the authority of the City of Darwin, may deliver a vehicle to any person offering evidence of ownership or authority to receive the vehicle and may refuse to deliver a vehicle unless they are so satisfied, and no servant or agent of City of Darwin shall be liable for such delivery detention or failure to deliver.
6. No person has authority to vary these conditions.
7. All vehicles are subject to the Traffic Regulations (NT).
8. Disability parking permits
 - 8.1 On-street designated disability parking bays
All designated disability parking bays are free of charge.
Time extensions that apply under the Australian Road Rules do not apply in designated disability parking bays.
The time on the sign is the maximum time that a vehicle can remain in that bay.
 - 8.2 Off-street designated disability parking bays
Vehicles displaying a disability parking permit may park in designated disability parking bays in City of Darwin off-street car parks all day free of charge, except for West Lane Car Park and Dragonfly Car Park. Vehicles displaying a valid permit may park in an accessible parking bay in either West Lane Car Park or Dragonfly Car Park for twice the time paid for.
 - 8.3 On-street Zone A and Zone B
A vehicle displaying an eligible disability parking permit may park in any Zone A and Zone B on-street parking bay, that would usually require payment, free of charge.
Any extension of time that a disability permit holder is entitled to under the Australian Road Rules for Zone A and Zone B is also free of charge.

Bay Type (Zone A and Zone B)	Payment required	Length of stay
15 minute bay	No	30 minutes
30 minute bay	No	2 hours
2P (2 hour bay)	No	4 hours
3P (3 hour bay)	No	6 hours

✗ = Item is exempt from GST per ATO Division 81.

Amounts in **BOLD** indicate GST is applicable and has been included

8.4 On-street Zone C

A vehicle displaying an eligible disability parking permit may park in Zone C but is required to pay for parking the entire time a vehicle is parked, including any extension of time that a disability permit holder is entitled to under the Australian Road Rules

Bay Type (Zone C)	Payment required	Length of stay
15 minute bay	Payment is required	30 minutes
30 minute bay	unless signage states NO CHARGE	2 hours
4P (4 hour stay)	Yes	8 hours

Car parking areas – alternative uses

City of Darwin will determine a hiring rate for commercial or not-for-profit users.

West Lane Car Park is unavailable for alternate use.

Persons hiring car parks for alternative use shall pay to City of Darwin all costs associated with City of Darwin providing car park attendants and supervisors and other necessary expenses such as electricity occasioned by the alternative use. The General Manager Innovation shall provide estimates to the person requiring alternative use prior to approval for the alternative use being granted.

These persons shall abide by and follow all the requirements and directions of the General Manager Innovation or their representative in the use of the car park.

The area required for the alternative use shall be left in a condition equal to that before the use was approved (that is, in a clean and tidy condition). The person requiring alternative use shall be made aware that water or any liquid cannot be used in cleaning the area approved.

Persons requiring this use shall make arrangements for their own electrical supply. Where portable generators are used, these generators shall be adequately silenced.

Hirers shall make arrangements for toilet facilities outside of normal working hours and shall make contact with and follow the requirements of the NT Department of Health for the alternative use.

✗ = Item is exempt from GST per ATO Division 81.

Amounts in **BOLD** indicate GST is applicable and has been included

COMMUNITY CENTRES CHARGES

City of Darwin has community centres at Lyons, Nightcliff, and Malak available for hire from 6am to midnight daily. Casuarina Aquatic and Leisure Centre Community room is available for hire from 6am to 7:30pm Monday to Friday and 8:30am to 7:30pm on the weekends.

City of Darwin aims to ensure that a range of user groups and/or individuals have fair and equitable access to City of Darwin's services and facilities. These facilities provide spaces for a diverse mix of activities and encourage community connectedness, participation in community life and enhance individual and community wellbeing.

There are two levels of charges:

- Not-for-profit/community benefit: community organisations/groups or individuals that are intending to not charge or charge a low cost for an activity where there is a community benefit, such as health and wellbeing.
- Commercial/private: businesses or individuals who provide a service or sell products with the intention of making a profit. This also includes use for private functions or events not open to the community, such as birthday parties.

City of Darwin requires any community group, organisation or individual entering into an agreement for the use of a community centre ("hirer") to comply with the conditions of use.

Cancellation of bookings must be provided in writing five (5) working days prior to the date of hire, otherwise the full hire charge will be forfeited.

Where City of Darwin officers or contractors are required after hours, additional cleaning or replacement of keys is required, or where the hirer fails to comply with the terms and conditions set out within their permit and negatively impacts subsequent users, the hirer will be required to meet these expenses.

Desexed dog/cat rehomed from an accredited rehoming organisation	Free for the first registration period X

Note

When deciding if an animal is an assistance animal, City of Darwin adopts the internationally recognised definition recommended by La Trobe University. The full La Trobe University report – Key terms for animals in disability assistance roles is available online: <https://www.ndis.gov.au/media/2542/download>

An assistance animal is not a companion animal, an animal that provides emotional and informal support or an animal used to provide a positive experience accompanying a person with a disability unless that animal also meets the definition of an assistance animal and has been trained by an accredited entity.

X = Item is exempt from GST per ATO Division 81.

Inter-library loan	2026/2027 Including GST \$
Inter-library loan	As set by the inter-library resource sharing code

Inter-library loan charges

City of Darwin Libraries will charge the following fees in the following instances:

- 1 No more than two items are requested on interstate inter-library loan for any one borrower at a time. Customers requesting more than two items will be charged according to the Australian Interlibrary Resource Sharing Code recommended schedule for each additional item.
- 2 There needs to be a six-month gap before the City of Darwin Libraries inter-library loans the same title for the same person. The City of Darwin Libraries will only process this inter-library loan request within the six months if the patron is prepared to pay for any inter-library loan charge incurred.
- 3 Customers requesting urgently required inter-library loans will be charged at the recommended Australian Interlibrary Resource Sharing Code rates for fast-track service.
- 4 Any cost incurred in obtaining information from specialised service suppliers will be passed on to customers.
