12. PUBLIC QUESTION TIME

(Haslett/Palmer)

THAT the following Public Questions and responses as tabled from Ms Lia Gill regarding Lakeside Drive be received and noted.

DECISION NO.21\5513 (27/06/17)

Carried

ACTION: CEO

12.1 Ms Lia Gill – Lakeside Drive Common No. 3248668

Question 1

Considering the huge amount of dumping that has occurred at 21 Lakeside drive and the cost this has incurred on ratepayers are there plans to erect signs to discourage dumping in this area ? If not why not ?

Response

Council has no plans to install 'No Illegal Dumping Signs', however has more recently installed a number of bollards in order to prevent vehicle access and illegal dumping in the area.

Question 2

During the last year and 4 months that I have been engaging with Council regarding the area of 21 Lakeside Drive I have found that there is a very disturbing lack of documentation such as work plans , work maps or records of any kind for some work carried out in this area. It seems from information I have received from Council that for the most part the C of D Council Environment and Infrastructure Department more or less just please themselves as to what work they properly document.

Will there be proper documentation of operations including work orders and work maps to indicate where topsoil is to be used in this area or will Council just continue do as they see fit without bothering to lodge adequate records as is expected of any professional organization ?

Response

The type of works undertaken generally determines the documentary requirements. This does vary from job to job and accords with Council's legislative and policy requirements.

Question 3

Considering the sensitive nature of this area and the impact on nearby properties the health of this area would have in the event of a surge will these work maps showing where topsoil is to be deposited be available for interested parties to view prior to this work being carried out ?

Response

Council has no plans to publish topsoil plans.

Question 4

What documentation is usually required to be in place prior to work being carried out for C of D Council by contractors ? And what records are usually kept regarding work carried out by C of D Council contractors ?

Response

Council expects that its contractors fulfil their legal and contractual obligations in the carrying out of their work. The specifics of works are generally contained in contractual terms.

Question 5

Is an itemised estimated budget required to be in place before any operation is begun ?

Response

This is dependent on the size and scope of works

Question 6

Why has Council evaded admission that Council directed and organised the fill used in drain number 12 at Lakeside drive which has been lined with tyres and tons of broken concrete and pieces of bitumen ?

Response

In accordance with Policy 043 I have determined not to accept this question as: the questioner has submitted the same or a substantially similar question (in meaning or content) to one that has been asked and a reply in the last three months.

 - (a) the number of separate residential parts or units that are adapted for separate occupation or use (pursuant to section 148(4) of the Act) on each allotment of land; or

 - (a) the number of separate residential parts or units that are adapted for separate occupation or use (pursuant to section 148(4) of the Act) on each allotment of land; or

xiii) 0.288145% of the assessed value of all rateable land (other than the small allotments identified below) within the municipality zoned GI or DV under the NT Planning Scheme, with the minimum amount payable in the application of that differential rate being \$1,138.00 multiplied by :-

(a) the number of separate residential parts or units that are adapted for separate occupation or use (pursuant to section 148(4) of the Act) on each allotment of land; or

(b) the number 1,

Council considers the following classes of allotments within the municipality zoned GI to be a different class of allotments and small allotments for the purposes of section 148(3)(b) of the Act and the example given at the foot of that section:

- Units 1 to 3 and Units 5 to 98 comprised in Unit Plan No. 95/95;
- Units 101 to 216 in Unit Plan 97/112;

- Lots 6244 to 6285 Hundred of Bagot; and
- Lots 6330 to 6336 Hundred of Bagot.

Council considers that an inequity would result if the minimum amount declared in respect of rateable land within Zone GI were applied to these small allotments, and accordingly, Council declares a lesser minimum amount, being \$283.00, to be payable in respect of each of these small allotments.

xiv) 0.420575% of the assessed value of every allotment of rateable land within the municipality not otherwise described above, with the minimum amount payable in the application of that differential rate being \$1,091.00 multiplied by :-

(a) the number of separate residential parts or units that are adapted for separate occupation or use (pursuant to section 148(4) of the Act) on each allotment of land; or

(b) the number 1,
whichever is the greater.
