- m) 0.462998% of the assessed value of all rateable land (other than the small allotments identified below) within the municipality zoned GI or DV under the NT Planning Scheme, with the minimum amount payable in the application of that differential rate being \$1,237.00 multiplied by :-
- (a) the number of separate residential parts or units that are adapted for separate occupation or use (pursuant to section 148(4) of the Act) on each allotment of land; or
- (b) the number 1,
whichever is the greater.
- Council considers the following classes of allotments within the municipality zoned GI to be a different class of allotments and small allotments for the

purposes of section 148(3)(b) of the Act and the example given at the foot of that section:

- Units 1 to 3 and Units 5 to 98 comprised in Unit Plan No. 95/95;
- Units 101 to 216 in Unit Plan 97/112;
- Units 17 to 32 comprised in Unit Plan 98/32;
- Lots 6244 to 6285 Hundred of Bagot; and
- Lots 6330 to 6336 Hundred of Bagot.

Council considers that an inequity would result if the minimum amount declared in respect of rateable land within Zone GI were applied to these small allotments, and accordingly, Council declares a lesser minimum amount, being \$308.00, to be payable in respect of each of these small allotments.

- n) 0.563150% of the assessed value of every allotment of rateable land within the municipality not otherwise described above, with the minimum amount payable in the application of that differential rate being \$1,187.00 multiplied by :-

- (a) the number of separate residential parts or units that are adapted for separate occupation or use (pursuant to section 148(4) of the Act) on each allotment of land; or
 - (b) the number 1,
- whichever is the greater.
