ACTION: GM CITY LIFE

Member J A Glover asked why the shade structure does not cover the whole of Parap Pool? Are there associated impacts on the temperature of the pool as a result of the reduced cover and is there an increase in chemicals required to maintain the pool as a result? Member Glover also queried if there are plans to complete the structure?

The General Manager City Life responded and advised that Council's decision to value-manage the project and the subsequent de-scoping included removal of the section of shade structure. Community concerns have been raised regarding the temperature but both pools have been maintained at the correct temperature without chemical intervention.
