Municipal Plan Summary

Outlines This statement outlines Councils entire budget in accordance with the published municipal plan. It shows the effect on General Funds (original budget - break even/nil). It groups items into operating, investing and financing and has a very close relationship to cash flows , which is why it is presented in the same international format. It eliminates the depreciation calculation and discloses totals for asset sales and purchases as well as loan raising and repayments. Finally it discloses the transfers to & from cash backed reserves which are detailed in the quarterly budget review reports.

Full Amended Budget: Includes carry forwards from 2016/17 and approved budget variations as per 1st and 2nd Quarter Budget Reviews.

Net funds provided by operating activities: These will reduce throughout the year to equate more closely to budget as the rates struck are expended.

Sale of Plant & Equipment: This appears low and should increase once fleet is updated.

Purchase of Infrastructure, property etc. This is 41% spent compared to 67% of year elapsed and will increased once fleet purchases are achieved.

Transfers from (-to) reserves. This discloses the transfers to & from cash backed reserves.
