Public Question from Ms Lia Gill – Meeting Policy

Common Number 3693078

Question 1

The last time I was here to put forward questions relating to Council Public Question time in June (2017) where my questions were not read out only the answers read out Council claimed that my questions were tabled prior to the meeting and also that hard copies were available for the public to read. It was also claimed that my questions were posted on the web site prior to the meeting.

I am a wee bit confused by these claims as the people present at the time that I have spoken to, some of the members of the Fannie Bay Equestrian Club , certainly were not aware of any hard copies of my questions being available at the time, and when I got home that evening directly after the June meeting I looked up the web site for meetings and my questions were defiantly not there.

The placement of my questions as an attachment attached to the confirmed minutes also indicates that this document containing my questions was put into the web site after the meeting had taken place.

What date was this document listed as attachment A and attached to the confirmed minutes of the second ordinary Council meeting for June 2017 actually placed into the C of D Council records of meetings ?

Question 2

For some reason the web link I was given last month for the review of policy 043 which was changed in May 2017 so that my questions were not read out in the June second ordinary Council meeting does not connect to this review and in fact goes to a site which says that the page could not be found. Could this link please be checked?

Question 3

As my questions were read out at the last second ordinary Council meeting , I'm assuming this policy has been changed back to public questions now being read out again. Is that correct ?
