DISCUSSION

On 11 November 2018, the 100th anniversary of the Armistice of the First World War will become the focus of national and international attention. This day will provide an opportunity for all Australians to commemorate and celebrate this historical milestone.

The Bombing of Darwin and Military History Advisory Committee established a standing item on the agenda for Armistice Day 2018 at their meeting on 25 October 2017. Further, following subsequent discussions on Armistice Day at the December 2017 and February 2018 Committee meetings, it was determined that a report be prepared for Council regarding the Centenary of Armistice commemorations in 2018.

The Director Community Engagement, DefenceNT attended the Bombing of Darwin and Military History Advisory Committee meetings on 6 December 2017 and 7 February 2018 and provided information on the current planning for 2018 Armistice Day activities, including options for Council support for consideration.

The Australian Government Department of Veterans Affairs is coordinating State and Territory Governments' participation in a national campaign. Some of the potential concepts from a national perspective include:

- Promotion of One Minute's Silence across Australia at 11am local time
- Silent Heroes – a series of illustrations with the voiceover of veterans telling their stories
- #1MS (One Minute's Silence) – a social media campaign to signify one minute's silence
- Freeze Frame – a program that would see major events paused for a minute's silence

At a local level, State and Territory government agencies and Local Government Councils are working with community organisations such as the Returned Services League (RSL) to offer community activities designed to:

- Commemorate the contribution of Defence Forces in upholding Australian values and freedom
- Encourage community participation across regions
- Demonstrate respect for over 100 years of military service by Australians including contemporary peace-keeping operations
- Encourage citizens to connect, participate, learn and share more about Australia's military history
- Encourage citizens to think of WWI within the scope and context of Australia's broader military history

The range of options considered at the committee meetings for Council support for 2018 Armistice commemorations included:

- Display lighting of the Civic Centre

PAGE: 4
 REPORT NUMBER: 18CL0024 KS:kl
 SUBJECT: CENTENARY OF ARMISTICE COMMEMORATIONS 2018

- Assistance with infrastructure for the RSL commemorative service
- Installation and removal of street light banners

City of Darwin has installed LED display lighting at the Civic Centre and could support commemorative activities with a suitable colour display on the building for the evenings of 10 and 11 November 2018. No additional budget and resources would be required for this action.

The Darwin RSL Sub-Branch will be holding a commemorative service at the Darwin Cenotaph on 11 November 2018. While this event is held every year, due to the significance of being the centennial anniversary, additional infrastructure may be required. City of Darwin may consider support for marquees or audio-visual equipment. This would require a budget allocation estimated at \$10,000.

The Department of Trade, Business and Innovation proposes to procure up to 200 street banners and provide them to City of Darwin for installation on Armistice Day 2018, Anzac Day 2019 and for use over the next several years dependant on the life of the banners. The proposal includes that Council would be responsible for installation, removal and storage of the banners. While 200 banners may be produced, Council would typically only install 100 banners for remembrance and commemorative service events at an estimated cost of \$12,000. The banner locations would include The Esplanade, CBD area and main arterial roads.

The report provides recommendations and cost estimates for Council to support the Centenary of Armistice commemorations in 2018.

BUDGET AND RESOURCE IMPLICATIONS

In order to support activities for the Centenary of Armistice commemorations in 2018 an amount of \$22,000 would be required to be referred to the 2018/2019 budget process for consideration.

PAGE: 5
REPORT NUMBER: 18CL0024 KS:kl
SUBJECT: CENTENARY OF ARMISTICE COMMEMORATIONS 2018

This amount would include \$10,000 for commemorative service support infrastructure and \$12,000 for installation and removal of street light banners.

This report identifies options and cost estimates for Council to support Armistice commemorations in 2018. It should be noted that any ongoing commitment to install and remove the proposed street light banners for subsequent events and years would require additional budget allocations.

Presenter: Darwin Safer City Program Coordinator, Elly Bugg

Approved: General Manager City Life, Anna Malgorzewicz

PURPOSE

This report updates Council of an operational initiative from Menzies School of Health that will see the placement of a 'people counter' located in Mitchell Street to support the collection of pedestrian data in the city centre

LINK TO STRATEGIC PLAN

The issues addressed in this Report are in accordance with the following Goals/Strategies as outlined in the 'Evolving Darwin Towards 2020 Strategic Plan':-

Goal

1. Collaborative, Inclusive and Connected Community

Outcome

1.4 Improved relations with all levels of government and significant stakeholders

Key Strategies

1.4.2 Play an active role in strategic and statutory planning processes

KEY ISSUES

- Menzies School of Health Research has requested the placement of a 'people counter' device in Mitchell Street to support data collection of foot traffic in the entertainment precinct. Mitchell Street has been identified for research purposes due to the concentration of licenced venues in the entertainment precinct.
- The 'people counter' counts people walking past the device, including the direction they are walking. It does not collect any identifying or personal information, take photographs or record sound.
- The data collected by the counter will be utilised in determining the impact of harm reduction and prevention measures implemented as a result of the Reilly Review.
- It will be correlated with data collected from other sources such as information related to wholesale liquor supply, criminal justice and health and hospital data to determine impacts of policy implementation over time.
- Council has long advocated for leadership by Government in accessible data provision to enable service and policy design to better respond to community need.

NT Alcohol Policies and Legislation Review

Report No. 17C0045 KH:es (27/06/17) Common No. 3562620

- B. *THAT Council endorse the City of Darwin response submission to the Northern Territory (NT) Government Review of Alcohol Policies and Legislation at **Attachment A** as amended to suggest some stronger responses to licensing, takeaway licenses, closing hours, provision of support facilities, review of dry area legislation enforcement, impact on residents and other administrative matters to report Number 17C0045 KH:es entitled NT Alcohol Policies and Legislation Review.*

DECISION NO.21\3499 (14/07/15)

DISCUSSION

The Northern Territory Government has begun implementing significant legislative and policy reform to tackle alcohol harms across the NT. As part of the Alcohol Policy and Legislation Review, of the 220 recommendations made to Government, 186 of those recommendations will be implemented in full, with a further 33 recommendations given in-principle support.

The implementation of policies based on the recommendations will be measured and assessed over time to measure and determine impact, especially those related to the high risk alcohol consumption rates in the NT.

Menzies School of Health Research have requested the install of a small people counter device as an important data collection tool which is expected to contribute to the assessment of policy implementation and harm reduction strategies related to the current and future alcohol reforms in the NT.

To capture data changes over time, Menzies School of Health Research and Deakin University will install the 'people counter' on Mitchell Street to collect data prior to any introduced interventions, which will then be compared to the data that is

REPORT NUMBER: 18CL0027 EB:kl

collected post-intervention. Deakin University will also evaluate the Banned Drinker Register and other alcohol policy in the NT, including the planned introduction of a floor price and how this impacts sales, consumption and economic cycles across the Territory, including businesses located in Mitchell Street.

Council has long advocated on numerous occasions for timely and accessible data to assist in measuring population and program level change and welcomes this initiative.

CONSULTATION PROCESS

In preparing this report, the following City of Darwin officers were consulted:

- A/General Manager – City Operations
- Manager – Vibrant Communities

In preparing this report, the following External Parties were consulted:

- CCTV Administrator – Northern Territory Police

POLICY IMPLICATIONS

Council has endorsed the 'Safer Vibrant Darwin Plan 2016-2019'. This Plan provides Council a framework to work towards a safer, healthier and more inclusive community. Underpinning the Plan is a focus on reducing the harms associated with excessive alcohol consumption and abuse. Council advocates for supply reduction, demand reduction and harm minimisation to meet the objectives of the Safer Vibrant Darwin Plan.

BUDGET AND RESOURCE IMPLICATIONS

Nil – installation is cost neutral to Council.

RISK/LEGAL/LEGISLATIVE IMPLICATIONS

Menzies School of Health Research have consulted with Northern Territory Police to ensure the device does not contravene privacy laws. The initiative does not require ethics approval through the Menzies School of Health Research or Deakin University.

Attaching a people counter in Mitchell Street

Menzies School of Health Research – Matt Stevens
Deakin University – Peter Miller

Dear Brendan Dowd/CEO

RE: Placement of people counter in Mitchell Street

Objectives: The people counter will generate counts of foot traffic in Darwin's primary entertainment (and alcohol consumption) precinct. The objective in collecting this information is to measure change in foot-traffic over time, with the aim of using the information to assist in better understanding how changes in alcohol policy and regulation affect venue visits in Mitchell Street. The data would also allow for seasonal variation, and economic cycles to be assessed with regards to foot-traffic in Mitchell Street.

Data collection: The people counter is simply that – it counts people, including the direction they are walking. It does not collect any identifying information.

Data access: We are happy to share data with all stakeholders, including NT government, Darwin City Council and local businesses.

Privacy: As all data is simply counts with no identifying data whatsoever, the counter does not contravene privacy laws and does not require ethics approvals at this stage. However, any funded project to assess alcohol policy and regulations (e.g. evaluation of the Banned Drinkers Register) would go through ethical review (CDU or the Menzies and Department of Health Human Research Ethics Committee). NT Police have been contacted and do not have any issues with using such a device, as the device does not collect any identifying information.

Technical specifications: See attached PDF with specifications summarised here:

Reference of the model: PYOBOX

Serial No: XSI17072882

Warranty start date: 9/8/2017

The people counter uses two laser lights to record the number of people walking past it and capture the direction they were walking. It will be affixed to a pole between 0.7 and 0.8 metres from the ground. Data is extracted from the device via blue-tooth when in local proximity.

Preferred location and attaching the people counter to a pole: Mitchell Street is the primary entertainment precinct in Darwin, and the street that contains the most alcohol licensed venues. Professor Richard Midford and Dr Matt Stevens have identified a location that we think meets the technical requirements of the people counter (e.g. no reflective surfaces, not pointing towards a doorway). The counter will be affixed to the pole using metal bands, which require a special tool to remove. See pictures below for identified placement site, which is around 52 Mitchell Street.

Please give me a call if you need to.

Kind regards,

M. Stevens
