### REPORT

**TO:** ENVIRONMENT & INFRASTRUCTURE  
COMMITTEE/OPEN A

**APPROVED:** PL

**FROM:** GENERAL MANAGER INFRASTRUCTURE

**APPROVED:** LC

**REPORT NO:** 09TS0070 PL:cb

**COMMON NO:** 1396661

**SUBJECT:** REQUEST TO PURCHASE OR LEASE COUNCIL LAND ADJACENT TO LOT 5095 (49) HICKMAN STREET, WINNELLIE

#### ITEM NO: 9.1

#### SYNOPSIS:

Jacana Waters Development Pty Ltd have requested to purchase or lease part of the drainage easement owned by Council which is located at the rear of their property Lot 5095 (49) Hickman Street, Winnellie. The drainage easement is known as Portion 1395. The Part Portion of easement 1395 is shown on **Attachment A**.

#### GENERAL:

Jacana Waters previously held a 12 month occupation lease for an area of 196 square metres of the easement from the Northern Territory Government. The land has since been transferred to Darwin City Council.

Jacana Waters have been advised to negotiate the continued occupation of the site with Darwin City Council.

Jacana has advised that it needs this space to store construction materials. If granted a lease the company would enter into an agreement to clear the noxious vegetation and maintain the site. Jacana has stated that they would be prepared to remove the construction materials when Council needs to work on the stormwater main.

This report recommends Council lease Part Portion 1395 to Jacana Waters Development. The length of the lease term of a portion of a drainage easement is limited to 12 years under the Northern Territory Planning Act (2008).

Council has become aware that Reichardt Road Pty Ltd, the owner of an adjacent property known as Portion 1396, has been using the northern section of Portion 1395 easement for the open storage equipment. It is considered reasonable that Council offer to lease the area of Portion 1395 being used by Reichardt Road Pty Ltd

under similar terms and conditions to the proposed lease to Jacana Waters Developments. The possible area to be leased to Reichardt Road Pty Ltd is shown on **Attachment B**. Stormwater infrastructure is shown on **Attachment C**.

Officers have no technical concerns with the proposal relating to stormwater, subject to standard conditions in the lease relating to access and the resolution of issues.

Documents providing a history of the negotiations regarding the request from Jacana Waters Development to lease Part Portion 1395 are included in **Attachment D**.

### **FINANCIAL IMPLICATIONS:**

If Council agree to lease Part Portion 1395 (adjacent to Section 5095) to Jacana Developments the lease term would be 12 years at commercial rates under Council's standard lease arrangements. The proponent will be responsible for all costs associated with the preparation of rental valuation by the Australian Valuation Office and the implementation costs for the lease agreement.

It is proposed that the same offer conditions would be made to the owners of Portion 1396 for the remaining Part Portion of 1395 adjacent to their property.

### **STRATEGIC PLAN IMPLICATIONS:**

The issues addressed in this report are in accordance with the following goals/strategies of the Darwin City Council 2008 – 2012 as outlined in the 'Evolving Darwin Strategic Directions: Towards 2020 and Beyond':-

#### **Goal**

- 1 Achieve Effective Partnerships and Engage in Collaborative Relationships

#### **Outcome**

- 1.1 Improve relations with all levels of Government

#### **Goal**

- 1 Achieve Effective Partnerships and Engage in Collaborative Relationships

**SUBJECT:** WASTE FEES AND CHARGES 2009/2010

**ITEM NO: 9.2**

**SYNOPSIS:**

At Council's 2<sup>nd</sup> Ordinary Meeting on 31 March 2009 the following was resolved:

- A. THAT Report Number 09A0047 entitled, Fees and Charges 2009/2010, be received and noted.
- B. THAT Council adopts the proposed Fees and Charges for the 2009/2010 financial year, effective from July 1 2009, with the exception of fees and charges for waste disposal at the Shoal Bay Waste Disposal facility.

DECISION NO.20\1375 (31/03/09)

Carried

This report considers Waste Fees And Charges for 2009/2010 including the domestic garbage and recycling charges and Shoal Bay Waste Management fees and charges.

**GENERAL:**

Council's current contract for the operations at Shoal Bay Waste management Facility (SBWF) expires on the 31 December 2009. Council is in the process of assessing and awarding a new contract. The following fees and charges have been calculated on actual costs and consideration of likely costs arising from the existing and new contract for services at the facility as detailed in The Draft 2009/2010 Budget.

**Table 1 Weighbridge Fees and Charges**

Item	2008/2009 \$/tonne	2009/2010 \$/tonne	% Increase
Commercial Waste (Other vehicles per tonne)	42.50	44.50	4.71%
Uncontaminated Truckloads of Green Waste	30.50	31.50	3.28%
Special Waste	119.00	124.50	4.62%

Item			% Increase
Non Darwin domestic users:	11.00	11.50	4.55%
<ul style="list-style-type: none"> <li>Car/Station Wagon/ Motorcycle</li> <li>Single axle trailer</li> <li>Car boot &amp; trailer full</li> <li>Ute or Van less than 0.5 tonne capacity and without trailer</li> <li>Ute or Van and trailer up to 1 tonne capacity</li> <li>Dual axle box trailer up to 1 tonne capacity</li> </ul>			
Non-Darwin domestic users Annual Access Fee (including tag)	26.00	45.00	73.01%
Lost or misplaced domestic access tags	4.50	15.00	233.33%

Areas of note and explanation for the recommend Weighbridge Fees and Charges in table 1 we as follows:

- **Lost or misplaced domestic tags:-** Council has noted an increase in the replacement of domestic tags. The current fee and charge at the replacement rate of \$4.50 anecdotal evidence indicates there is no incentive for residents to show care for the tag.
- **Recyclables to landfill:-** This issue fee is seen as an incentive for commercial operators to recycle and not to dispose of recyclables into landfill.
- **Non-Darwin Domestic Users:-** This cost reflects a progression to a user pay system.

It is anticipated on current and predicated usage the estimated income from Shoal Bay Weighbridge based on draft fees and charges will be \$5,142,926.

A review of the Domestic Garbage and Recycling charge has also been undertaken and the following fees and charges are recommended for 2009/2010.

**Table 2 Domestic Garbage and Recycling Fees and Charges**

1,100 litre Recycling Bin	1124.00	1176.00	4.63%	

Services levels to be provided under the above fees and charges are described in **Attachment A.**

It is anticipated that the proposed Domestic Garbage and Recycling Fees and Charges will generate an estimated income of \$4,900,530 in 2009/2010.

### **FINANCIAL IMPLICATIONS:**

The increases generally have been within 4-5% and the fees and charges have been calculated with regard to anticipate costs associated with providing the services and budget parameters.

In December 2008 the Australian Government released a white paper relating to a Carbon Pollution Reduction Scheme (CPRS).

The scheme as described in the white paper would effect Council in relation to the SBWF. Based on available information the CPRS could result in a cost to Council in the order of \$800,000 a year. This figure is at best questionable given uncertainties surrounding likely charges and so on with the paper.

Given the questions surrounding the CPRS the impact on Council and the start date of 1 July 2010 or even later it has not been considered in this years budget however, Officers will continue to monitor developments and report to Council as required.

### **STRATEGIC PLAN IMPLICATIONS:**

The issues addressed in this Report are in accordance with the following Goals/Strategies of the Darwin City Council 2008 – 2012 as outlined in the 'Evolving Darwin Strategic Directions: Towards 2020 and Beyond':-

#### **Goal**

7 Demonstrate Effective, Open and Responsible Governance

## ATTACHMENT A

**SERVICE LEVEL DESCRIPTIONS FOR PROPOSED 2009/2010  
DOMESTIC GARBAGE AND RECYCLING CHARGES**

---

For the purposes of this Description:

- “residential dwelling” means a dwelling house, flat or other substantially self contained residential unit or building on residential land and includes a unit within the meaning of the *Unit Titles Act*.
  - “residential land” means land used or capable of being used for residential purposes (but does not include land on which there is no residential dwelling).
- i). A charge of \$195 per annum per residential dwelling in respect of kerbside garbage collection and recycling collection services provided to, or which Council is willing and able to provide to, each residential dwelling within the municipality other than a residential dwelling as described in paragraphs E ii – E iv.

The services are –

- a kerbside collection service of one garbage collection visit per week; and
- a kerbside recycling collection service of one visit per fortnight,

with a maximum of one 240 litre mobile bin per garbage collection or recycling collection visit.

- ii). A charge of \$165 per annum per residential dwelling in respect of manual non-kerbside (communal) garbage collection and recycling collection services provided to, or which Council is willing and able to provide to, each residential dwelling within the municipality where the number of residential dwellings (as the case may be) exceeds three (3).

The services are as described in Part 1 of the Schedule below.

- iii). A charge of \$225 per annum per residential dwelling in respect of manual non-kerbside (communal) garbage collection and recycling collection services provided to, or which Council is willing and able to provide to, each residential dwelling within the municipality where:

(a) the number of residential dwellings exceeds twelve (12);

(b) the dwellings and the facilities in and about the dwellings meet the requirements of the Council for the purposes of providing the services;  
and

- (c) the owners of the dwellings have notified the Council in writing of their wish to be provided with these services.

The services are as described in Part 2 of the Schedule below.

- iv). A charge of \$165 per annum per residential dwelling in respect of manual non-kerbside (communal) garbage collection and recycling collection services provided to, or which Council is willing and able to provide to, each residential dwelling within the municipality where:

- (a) the number of residential dwellings exceeds forty (40);

- (b) the dwellings and the facilities in and about the dwellings meet the requirements of the Council for the purposes of providing the services; and

- (c) the owners of the dwellings have notified the Council in writing of their wish to be provided with these services.

The services are as described in Part 3 of the Schedule below

- v). Where the person liable to pay the charge satisfies Council that a comparable alternative recycling service is being provided to a residential dwelling (other than a residential dwelling as described in paragraphs (ii) to (iv)), a charge of \$98.00 per annum per residential dwelling in respect of garbage collection provided to, or which Council is willing and able to provide to, all or any residential dwellings within the municipality.

The garbage collection shall be a kerbside collection service of one garbage collection visit per residential dwelling per week, with a maximum of one 240 litre mobile garbage bin per visit.

- vi). Where the person liable to pay the charge satisfies Council that a comparable alternative garbage service is being provided to a residential dwelling (other than a residential dwelling as described in paragraphs (ii) to (iv)), a charge of \$98.00 per annum per residential dwelling in respect of recycling collection service provided to, or which Council is willing and able to provide to, all or any residential dwellings within the municipality.
