HOW TO MAKE SURE YOUR WHEELIE BIN GETS EMPTIED:

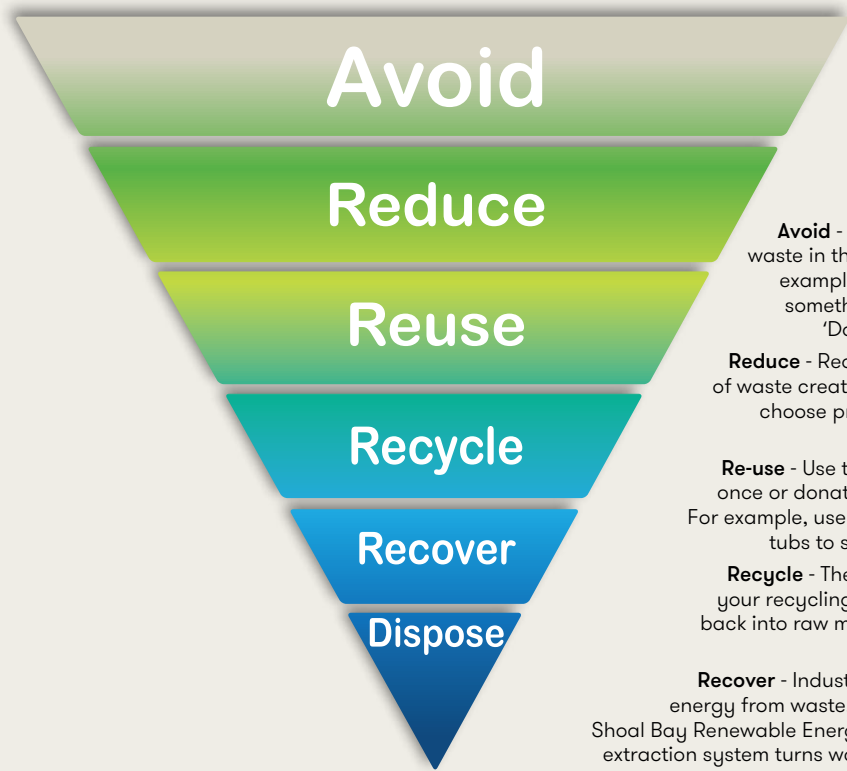

- Place bins at least 1/2 metre apart on kerbside (not the road).
- Place bins out by **7am**.
- Take your wheelie bin in within **24 hours**.
- Keep bins clear of overhanging branches and obstructions.
- No overflowing bins.
- Close the bin lid.
- Bin must not exceed **70kg**.
- Only recyclable items go in the yellow lid bin.
- Council bins only.

How to report a lost or stolen or damaged wheelie bin. Phone JJ Richards on 1800 290 581 or report through City of Darwin's Website

How to avoid flies. Our website has tips on what you can do darwin.nt.gov.au

Avoid - Avoid producing waste in the first place. For example, before buying something ask yourself 'Do I really need it.'

Reduce - Reduce the amount of waste created. For example, choose products with less packaging.

Re-use - Use things more than once or donate to an op-shop. For example, use clean ice-cream tubs to store loose items.

Recycle - The items placed in your recycling bins are turned back into raw materials to make new products.

Recover - Industry can generate energy from waste. For example, at Shoal Bay Renewable Energy Facility a gas extraction system turns waste into energy.

Dispose - As a last resort, dispose of waste in landfill.

THE WASTE HIERARCHY

- The waste hierarchy is a universally accepted guide on how to prioritise how we use, reuse and dispose of material for the best environmental outcome for now and the future.
- The higher up the hierarchy you act, the better for the environment.

RECYCLING INFORMATION

The Australasian Recycling Label makes it easy to put your packaging in the right bin

Recyclable: The coloured/opaque recycling symbol, means that this piece of packaging can be placed in the recycling bin as it is. Each piece of packaging with this label has to be placed separately in the recycling bin.

Conditionally Recyclable: The clear/ transparent recycling symbol means that you must follow the instructions to recycle this packaging component. If you don't follow the instructions it has to go in the rubbish bin, as it will otherwise not be recycled and cause contamination to the recycling stream.

Not Recyclable: The bin symbol, means that this piece of packaging is not recyclable and you must place it in the rubbish bin. DO NOT place it in the recycling bin. It will not get recycled and it will contaminate the recycling stream.

HOW CAN YOU RECYCLE BETTER.

- Use the right bin!
- Containers and packaging should not contain food or liquids.
- Put recyclable items into the bin loose - not in plastic bags.

DON'T PUT THESE ITEMS IN THE RECYCLING BIN
