A few simple mistakes, like putting plastic bags in the yellow recycle bin, can send tons of good recycling to landfill. So recycle your thinking and learn to recycle for good.

Keep it loose

Don't bag your recycling

IT'S TIME TO RECYCLE RIGHT

IN MULTI-DWELLINGS A SIGNIFICANT AMOUNT OF RUBBISH IS ENDING UP IN THE RECYCLING BINS.

USE THE RIGHT BIN

PLEASE KEEP PLASTIC BAGS, FOOD SCRAPS, CERAMICS, CLOTHING AND GARDEN WASTE OUT OF YOUR RECYCLING BIN

Are there enough bins at your building so that residents can find space in the right bin? If not, please let your body corporate or agent know.

DON'T LET OUR EFFORTS GO TO WASTE.

IF IN DOUBT, LEAVE IT OUT!

Or put it in your red lid bin

HOW TO MAKE SURE YOUR WHEELIE BINS GET EMPTIED:

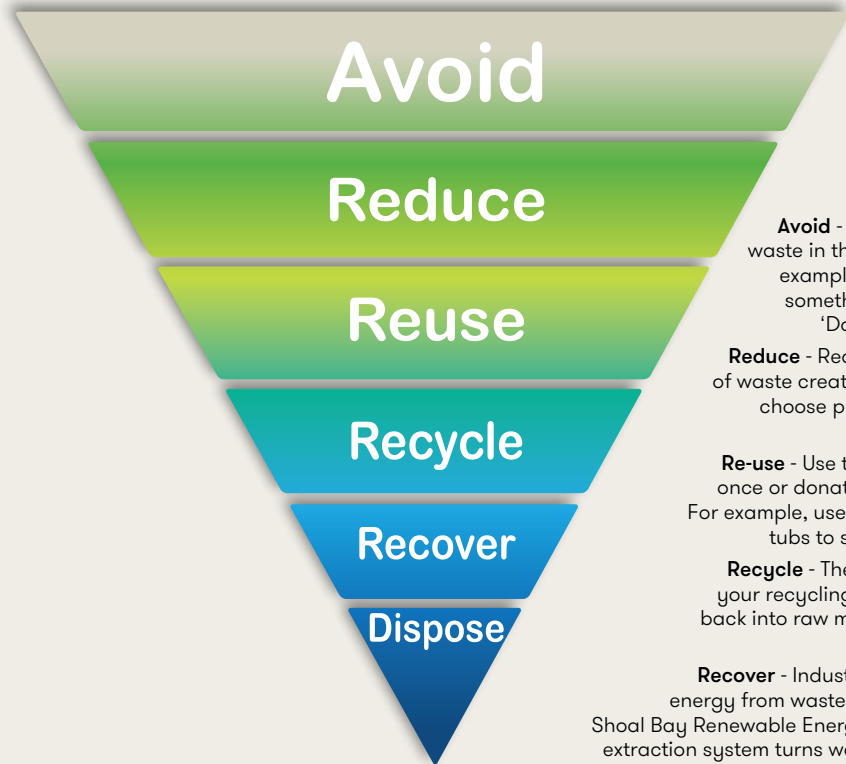

- Bin compound is to be accessible and clean
- All material must be placed in the bins
- Only recyclable items go in the yellow bin
- No overflowing bins
- Close the bin lid
- Bin must not exceed **70kg**
- Council bins only

How to report a lost or stolen or damaged wheelie bin. Phone JJ Richards on **1800 290 581** or report through City of Darwin's Click and Fix App.

How to avoid flies. Our website has tips on what you can do darwin.nt.gov.au

Avoid - Avoid producing waste in the first place. For example, before buying something ask yourself 'Do I really need it.'

Reduce - Reduce the amount of waste created. For example, choose products with less packaging.

Re-use - Use things more than once or donate to an op-shop. For example, use clean ice-cream tubs to store loose items.

Recycle - The items placed in your recycling bins are turned back into raw materials to make new products.

Recover - Industry can generate energy from waste. For example, at Shoal Bay Renewable Energy Facility a gas extraction system turns waste into energy.

Dispose - As a last resort, dispose of waste in landfill.

THE WASTE HIERARCHY

- The waste hierarchy is a universally accepted guide on how to prioritise how we use, reuse and dispose of material for the best environmental outcome for now and the future
- The higher up the hierarchy you act, the better for the environment

RECYCLING INFORMATION

The Australasian Recycling Label makes it easy to put your packaging in the right bin

Recyclable: The coloured/opaque recycling symbol, means that this piece of packaging can be placed in the recycling bin as it is. Each piece of packaging with this label has to be placed separately in the recycling bin.

Conditionally Recyclable: The clear/ transparent recycling symbol means that you must follow the instructions to recycle this packaging component. If you don't follow the instructions it has to go in the rubbish bin, as it will otherwise not be recycled and cause contamination to the recycling stream.

Not Recyclable: The bin symbol, means that this piece of packaging is not recyclable and you must place it in the rubbish bin. DO NOT place it in the recycling bin. It will not get recycled and it will contaminate the recycling stream.

HOW CAN YOU RECYCLE BETTER

- Use the right bin
- Containers and packaging should not contain food or liquids
- Put items into the bin loose - not in plastic bags

DON'T PUT THESE ITEMS IN THE RECYCLING BIN
